## COUNCIL COMMUNICATION

AGENDA TITLE: Adopt Resolution Authorizing the City Manager to Execute a Work Order for Mark Thomas & Company, Inc., for Design of Kettleman Lane Widening Project from Woodbridge Irrigation District Canal to Tienda Drive and Stockton Street to Cherokee Lane; and Appropriate \$152,650

MEETING DATE: February 7, 2001

PREPARED BY: Public Works Director

RECOMMENDED ACTION: That City Council adopt a resolution authorizing the City Manager to execute a work order for design work for the Kettleman Lane Widening Project to Mark Thomas & Company, Inc., and appropriate \$152,650 for the design work.

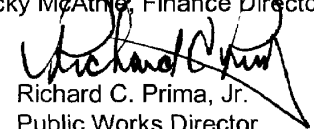

BACKGROUND INFORMATION: At the November 1, 2000, City Council meeting, City Council authorized the City Manager to execute the professional service agreement with Mark Thomas & Company, Inc., to prepare the design work for the Kettleman Lane Widening Project. After the design consultant and staff evaluated the project, it was determined that the project limits could be expanded within the project budget. The project was expanded to include the 0.5-mile segment between Cherokee Lane and Stockton Street. This segment has had several collisions involving turning vehicles. To eliminate these types of collisions, the additional work includes a raised median within the existing right of way. In addition, dual left-turn lanes on the Kettleman Lane eastbound approach at Cherokee Lane will be designed to accommodate the high turning volume and improve the intersection operations. The design consultants will prepare plans and specifications, as well as provide the environmental documentation for this segment.

In addition, the scope of the project will include the landscape design of the proposed raised median for both segments.

The consultant, along with staff, will conduct a public information meeting on February 20, 2001, to gather public input from the community. Notices were distributed to all the property owners and tenants along these segments, and ads were placed in the local newspaper. Staff recommends City Council adopt a resolution authorizing the City Manager to execute the attached work order.

PROJECT: Kettleman Lane Widening Project, WID to Tienda Drive, and Cherokee Lane to Stockton Street

CONSULTANT: Mark Thomas & Co., Inc.

You are directed to make the following changes or do the following work not included in the Agreement For Consulting Services dated December 11, 2000.

-----  
Description of work: To provide design and environmental work for an expanded project segment between Cherokee Lane to Stockton Street, median landscape and irrigation design for both segments, and expanded traffic analysis as described in the attached scope of services.

Justification: After the consultant and staff evaluated the project, it was determined that project limits could be expanded within the project budget. The project was expanded to include the 0.5-mile segment between Cherokee Lane and Stockton Street. This segment has had several collisions involving turning vehicles. To eliminate these types of collisions, the additional work includes a raised median within the existing right of way. In addition, dual left turn lanes, on the Kettleman Lane eastbound approach at Cherokee Lane, will be designed to accommodate the high turning volume and improve the intersection operations. The design consultants will prepare plans and specifications as well as provide the environmental documentation for this segment. In addition, the scope of the project will include the landscape design of the raised median for both segments. The consultant will also provide additional traffic analysis for the environmental documentation.
